

IMMUNO-TROL

A comprehensive range menu of internal and independent auto-immune Quality Control sera for FEIA-based systems

MULTI parameters QC for the FEIA-based systems

For assay validation

Universal multi-parametric controls

A comprehensive test menu consolidation, up to 6 parameters per vial. Reduces Quality Control storage, is cost effective, saves time and improves efficiency.

Internal and Independent quality controls

An unbiased performance assessment with FEIA-based system, Third Party QC complying with the requirements of ISO 15189.

Commutability

Identical use and reactivity as patient sample fulfilling the requirements of ISO 15189 and reducing the cost in Quality Control when reagent batch is changed.

Standardised controls

Our manufacturing processes guarantee the lot won't change frequently, the parameters levels will be mostly preserved lot-to-lot.

Shelf life

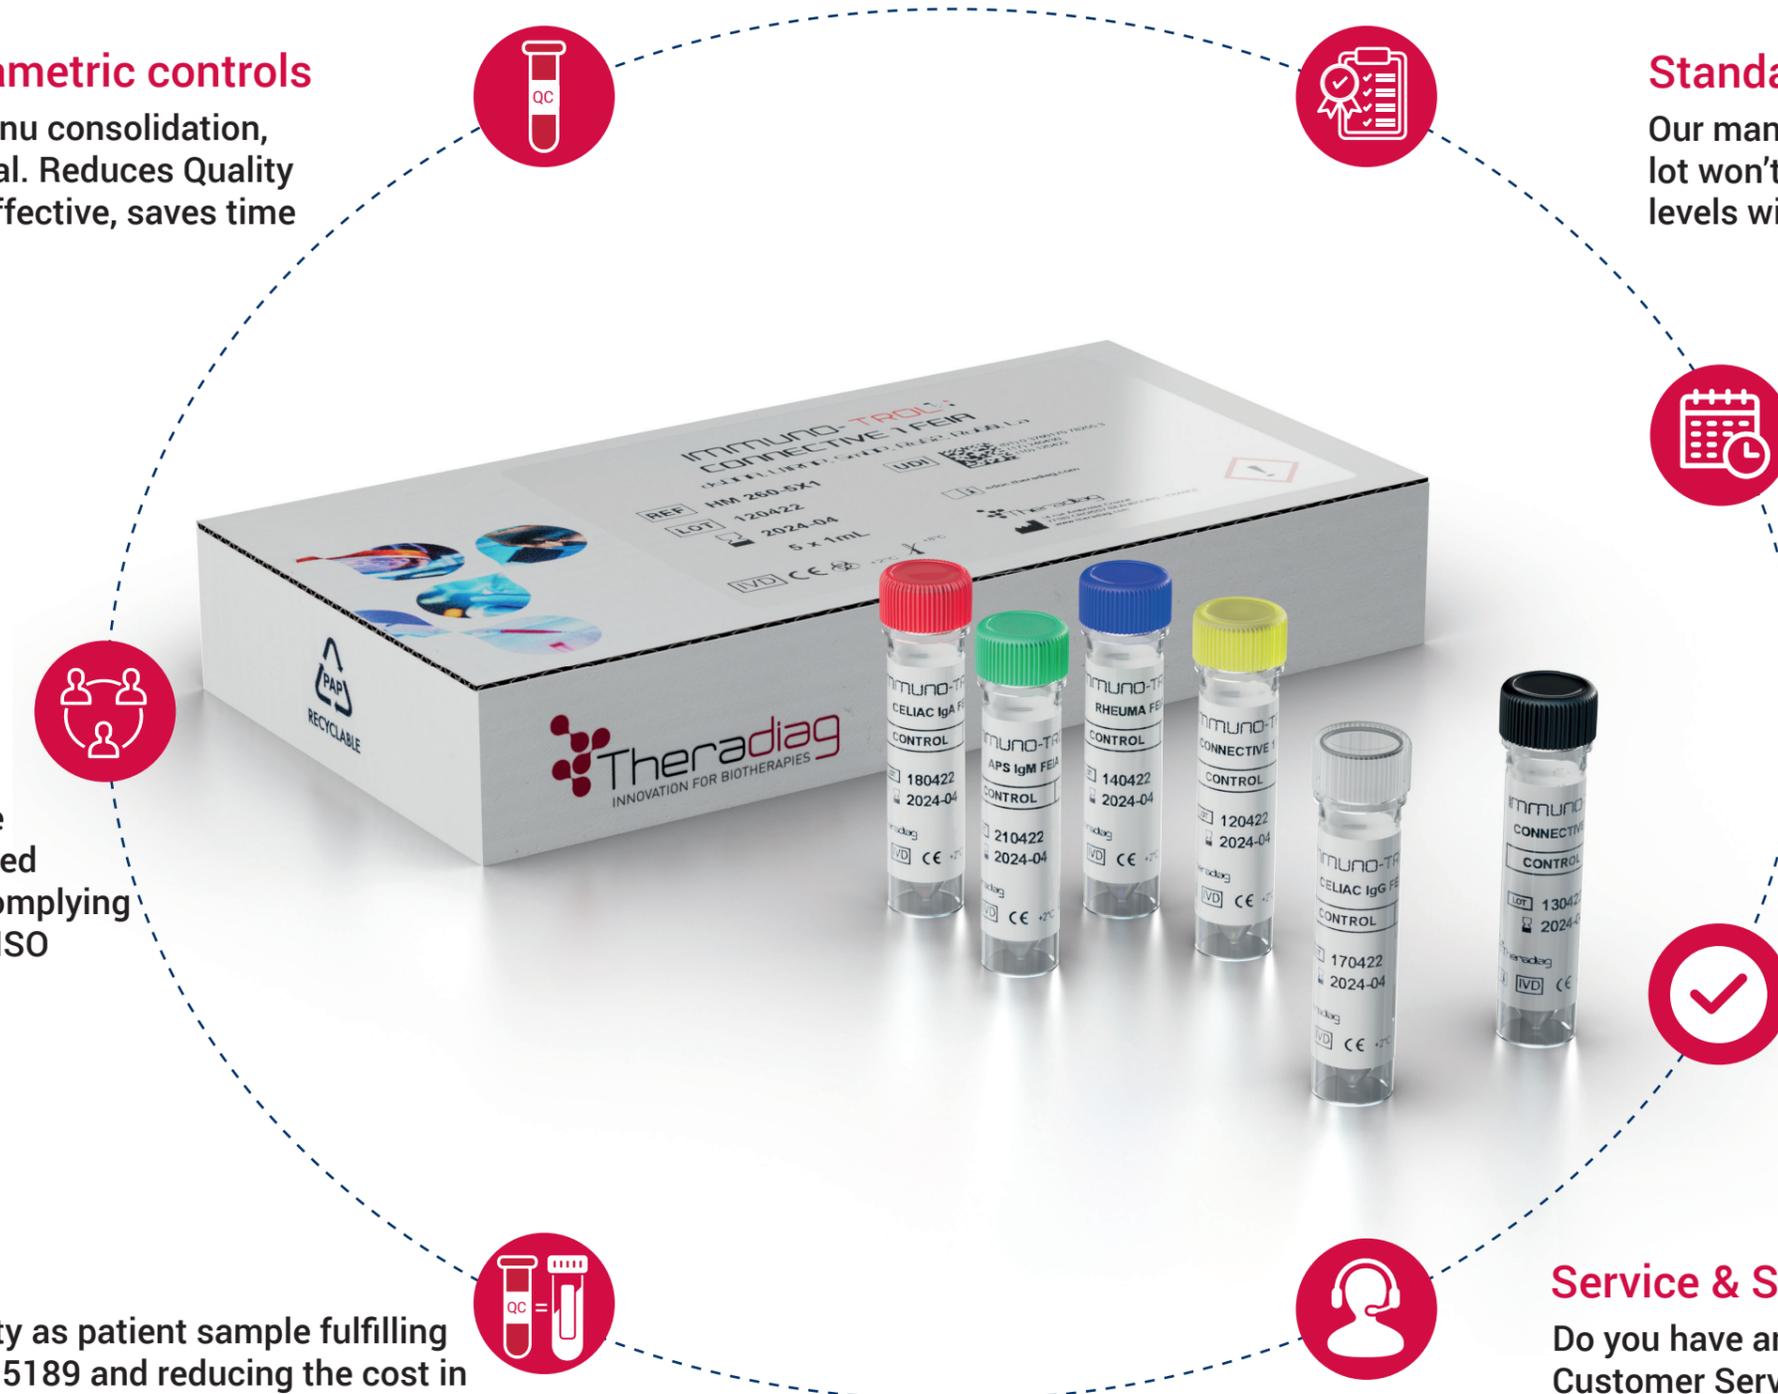

Shelf life up to two years. The same QC batch for a long time with limited need of QC target adjustments.

Liquid control

Ready-to-use. More accuracy and precision.

Product Description	Reference	Packaging
Connective 1 FEIA	HM 260-5X1	5X1 mL
Connective 2 FEIA	HM 261-5X1	5X1 mL
APS IgG FEIA	HM 262-5X1	5X1 mL
APS IgM FEIA	HM 263-5X1	5X1 mL
Rheuma FEIA	HM 264-5X1	5X1 mL
Thyro FEIA	HM-265-5X1	5X1 mL
Vasculitis FEIA	HM 267-5X1	5X1 mL
Celiac IgG FEIA	HM 269-5X1	5X1 mL
Celiac IgA FEIA	HM 270-5X1	5X1 mL
ASCA FEIA	HM 271-5X1	5X1 mL

FEATURES

- Human based matrix
- Liquid ready-to-use
- 28 parameters for 10 references
- Multi-parametric controls

SPECIFICATIONS

- 60 days open vial stability at +2°C to +8°C
- 12 months closed vial stability at +2°C to +8°C for IgM and 24 months for IgG and IgA

INSTRUMENTS

- IMMUNO-TROL to be used on FEIA-based systems
