

HIGH PRECISION DIAGNOSTICS FOR PERSONALIZED MEDICINES

YOUR BIOMARKER TEST RESULTS WITHIN 3 HOURS. THINK IDYLLA™

The Idylla™ solution is a revolutionary, fully automated, real-time PCR based molecular testing system designed to offer results in a minimum amount of time. Accessible on demand and without the need for batching. It makes molecular testing fast, convenient and suitable for any lab.

Highly sensitive, fully automated biomarker testing

Less than 3 hours TAT

On solid and liquid biopsies

Minimal sample input requirements

24/7 testing on single samples - No need for batching and loosing time

In-house testing suitable for any hospital lab setting – No need to send samples out

Complementary to NGS

THINK IDYLLA™
BECAUSE TIME MATTERS

*Currently under development

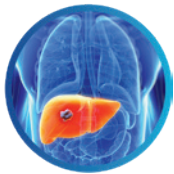

GENE EXPRESSION SIGNATURES AS GUIDANCE FOR CLINICAL DECISION MAKING.

IN VITRO DIAGNOSTICS (IVD)

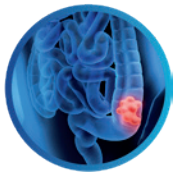

MELANOMA - Merlin™ Assay

Merlin helps identify melanoma patients who may forgo the sentinel lymph node biopsy. The Merlin™ Assay is being commercialized in Europe by Biocartis as a CE-IVD marked manual kit, ahead of the launch of an Idylla™ version of the test which is under development.

LIVER CANCER - HepatoPredict

Prognostic tool supporting the decision of liver transplantation in hepatocellular carcinoma.

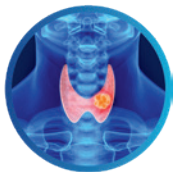

COLORECTAL CANCER - ColoNode®

Novel IVD for the detection of tumor cells in lymph nodes of colorectal cancer patients.

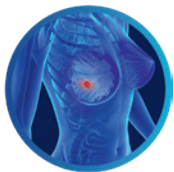

RESEARCH ASSAYS (FOR RESEARCH USE ONLY - NOT FOR USE IN DIAGNOSTIC PROCEDURES)

THYROID CANCER - ThyroidPrint®

The Thyroid Genetic Classifier to safely forgo unnecessary diagnostic thyroid surgery. Development of the Idylla™ ThyroidPrint® RUO Assay is ongoing.

BREAST CANCER - APIS Breast Cancer Subtyping Kit

Breast Cancer Subtyping Kit for fast classification of breast cancer.
