

PRODUCT **offering**

LATERAL FLOW ASSAYS

CrAg[®] LFA

- 10 minute test time
- No specimen pretreatment
- 2 year shelf life
- Room temperature storage
- Qualitative & semi-quantitative results

CR2003 Cryptococcus Antigen LFA 50 tests

FDA | Serum & CSF

CE | Serum, Plasma, Whole Blood, & CSF

Coccidioides Ab

- 45 minute test time
- Run on all shifts
- Reduce send-outs
- Room temperature storage

CTA2003 Coccidioides Antibody LFA 50 tests

FDA | Serum

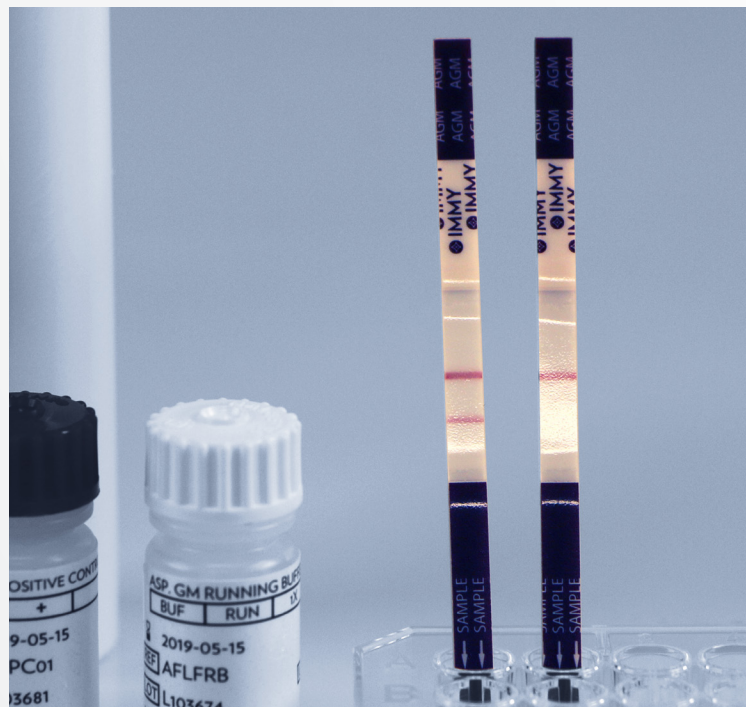

ASPERGILLUS GM

- Results in 45 minutes
- Run on all shifts
- Reduce send-outs
- Room temperature storage

AF2003 Aspergillus Galactomannan LFA 50 tests

CE | Serum & BAL

Australian customers - please check regulatory status for this product

IMMUNODIFFUSION

ID Fungal Antibody System | *Aspergillus*, *Blastomyces*, *Coccidioides*, and *Histoplasma*

The Immunodiffusion Fungal Antibody test kit contains enough reagents (antigen, positive control, and plates) to test 24 specimens for antibodies against each of the following organisms: *Aspergillus*, *Blastomyces*, *Coccidioides*, and *Histoplasma*.

ID-Candida Antibody System

The ID Candida antibody test kit contains enough reagents (antigen, positive control, and plates) to test 40 specimens for antibodies against *Candida*.

ID1001 **ID Fungal Antibody System** 24 pts.
Aspergillus, *Blastomyces*,
Coccidioides, and *Histoplasma*

CA1001 **ID-Candida Antibody System** 40 tests

A30110 *Aspergillus* ID Antigen 1 ml
A40110 *Aspergillus* ID Positive Control 1 ml
A70110 *A. fumigatus* ID Antigen 1 ml
A80110 *A. fumigatus* ID Positive Control 1 ml
A90110 *A. flavus* ID Antigen 1 ml
AA0110 *A. flavus* ID Positive Control 1 ml
AD0110 *A. niger* ID Antigen 1 ml
AE0110 *A. niger* ID Positive Control 1 ml
AF0110 *A. terreus* ID Antigen 1 ml
AG0110 *A. terreus* ID Positive Control 1 ml

B30110 *Blastomyces* ID Antigen 1 ml
B40110 *Blastomyces* ID Positive Control 1 ml

C50110 *Candida* ID Antigen 1 ml
C60110 *Candida* ID Positive Control 1 ml

C30110 *Coccidioides* IDCF Antigen 1 ml
C40110 *Coccidioides* IDCF Positive Control 1 ml
C70110 *Coccidioides* IDTP Antigen 1 ml
CD0110 *Coccidioides* IDTP Positive Control 1 ml

H50110 *Histoplasma* ID Antigen 1 ml
H60110 *Histoplasma* ID Positive Control 1 ml

PS10110 Pigeon serum antigen 1 ml
PS20110 Goat anti-pigeon serum 1 ml
SR10110 *M. faeni* ID Ag 1 ml
SR20110 Goat anti-*M. faeni* serum 1 ml
SV10110 *S. viridis* ID Ag 1 ml
SV20110 Goat anti-*S. viridis* serum 1 ml
TC10110 *T. candidus* ID Ag 1 ml
TC20110 Goat Anti-*T. candidus* serum 1 ml
TV10110 *T. vulgaris* ID Ag 1 ml
TV20110 Goat Anti-*T. vulgaris* serum 1 ml

ID1019 Cleargel™ 4 Series 6 / pack
ID1029 Agarose 4 Series 6 / pack
ID1039 Cleargel™ 4 Series – Large Well 6 / pack
CA1019 Cleargel™ Single Series 10 / pack

COMPLEMENT FIXATION

A10150 *Aspergillus* CF Antigen Dilute 5.0 ml
A20110 *Aspergillus* CF Positive Control 1.0 ml
B10150 *Blastomyces* CF Antigen Dilute 5.0 ml
B20110 *Blastomyces* CF Positive Control 1.0 ml
C10150 *Coccidioides* CF Antigen Dilute 5.0 ml
C20110 *Coccidioides* CF Positive Control Sera 1.0 ml
H10150 *Histoplasma* Mycelial CF Antigen Dilute 5.0 ml
H20110 *Histoplasma* Mycelial CF Positive Control 1.0 ml
H30150 *Histoplasma* Yeast CF Antigen Dilute 5.0 ml
H40110 *Histoplasma* Yeast CF Positive Control 1.0 ml

Immunodiffusion Plates

In order to overcome the inherently opaque appearance of agarose immunodiffusion plates, IMMY developed Cleargel™.

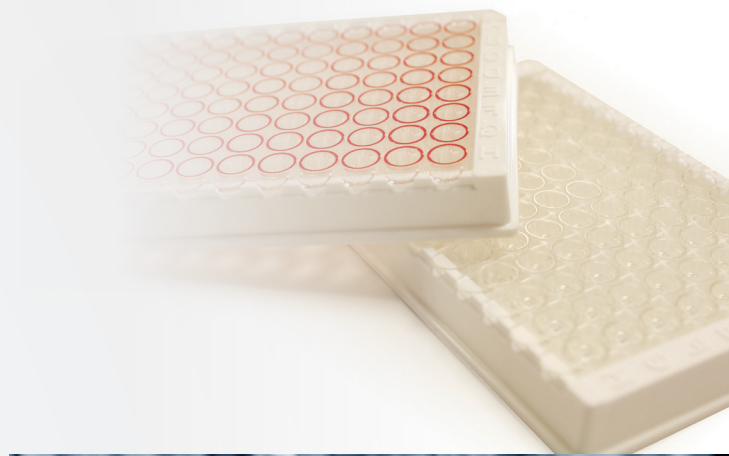

Cleargel™ Plates

Cleargel™ is a proprietary gelling agent which produces an ultra-clear gel structure for easy visualization of precipitin bands from most species except rabbit.

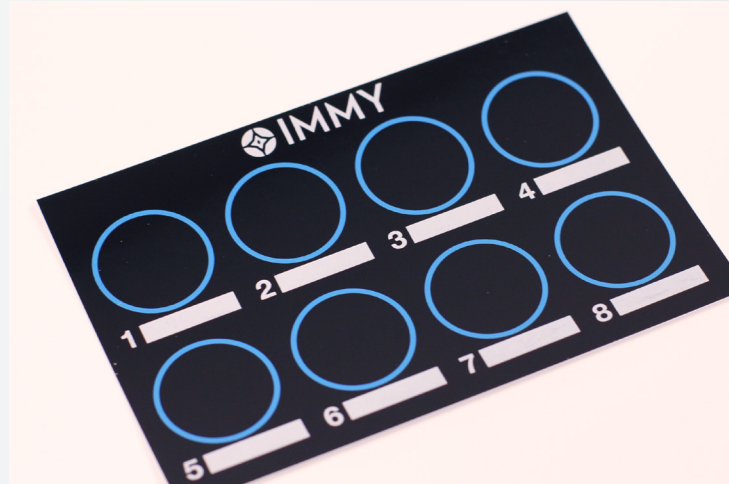

ENZYME IMMUNOASSAYS

BTA101	<i>Blastomyces</i> Total Antibody EIA FDA Serum & CSF	96 tests
CAB102	<i>Coccidioides</i> Antibody EIA FDA Serum & CSF	96 tests
CRY101	<i>Cryptococcus</i> Antigen EIA FDA Serum & CSF CE Serum & CSF	192 tests
HAG102	<i>Histoplasma</i> Antigen EIA FDA Urine CE Urine	96 tests
HGM101	<i>Histoplasma</i> Galactomannan EIA CE Urine	96 tests

LATEX AGGLUTINATION

CI1001	<i>Coccidioides</i> LA/ID Antibody System	60 tests
CL1001	LA- <i>Coccidioides</i> Antibody System	80 tests
CR1003	Latex- <i>Cryptococcus</i> Antigen Detection System	50 tests
CR1004	Latex- <i>Cryptococcus</i> Antigen Detection System	120 tests
HL1001	LA- <i>Histoplasma</i> Antibody System	80 tests
SL1001	LA- <i>Sporothrix</i> Antibody System	80 tests

MISC.

YA1001	YA- <i>Cryptococcus</i> Antibody Tube Agglutination	60 tests
DE0010	Pronase	1.75 ml
N80110	Negative Control	1.0 ml
