

NEW!

Ross River Virus Diagnosis with VirClia[®] Monotest

VirClia[®] is the newest, and most efficient, diagnostic kit to provide a solution to Australia's most important mosquito borne disease. Benefit now from the advantages of a true monotest, that contributes to the optimization of the laboratory workflow allowing you to obtain results as soon as the samples arrive.

The VirClia[®] Ross River virus products are indirect chemiluminescent immunoassays (CLIA) to test IgG and IgM antibodies against Ross River Virus in human serum or plasma samples.

VCM069 • **ROSS RIVER VIRUS VIRCLIA[®] IgG MONOTEST** • 24 tests
VCM070 • **ROSS RIVER VIRUS VIRCLIA[®] IgM MONOTEST** • 24 tests

MAIN BENEFITS

- Monotest format with all necessary reagents included.
- More efficient method than traditional ELISA, no need to batch, no need to waste on additional controls.
- Speed-up your results, thanks to shorter incubation times in CLIA.
- True expiration date of 15 months per strip from date of manufacture.
- Exhaustive quality control, as every monotest includes a calibrator for internal validation.
- No hidden costs: 1 monotest = 1 reportable test

VIRCLIA® THE SOLUTION TO VECTOR-BORNE INFECTIONS & MORE

VIRCLIA®, THE RIGHT ANSWER FOR YOU LABORATORY

With more than 80 products available, VirClia® is the ideal technique to analyze high-volume parameters, as well as esoteric and low volume tests.

CLIA automated technology: Excellent sensitivity and turnaround time

Monotest format: All reagents are included and ready to use

Extensive menu: Widest panel for infectious serology

Labour-saving: Allows pipetting from primary sample tubes

Cost effective: No extra consumption of reagents required

LIS Connectivity: Host-Query, Data Retrieval, Levey-Jennings

OTHER VECTOR-BORNE INFECTIONS

- VCM009 BORRELIA VIRCLIA® IgG MONOTEST
- VCM010 BORRELIA VIRCLIA® IgM MONOTEST
- VCM008 CHAGAS VIRCLIA® IgG+IgM MONOTEST
- VCM023 DENGUE VIRCLIA® IgG MONOTEST
- VCM024 DENGUE VIRCLIA® IgM MONOTEST (capture)
- VCM053 LEISHMANIA VIRCLIA® IgG+IgM MONOTEST
- VCM080 RICKETTSIA CONORII VIRCLIA® IgG MONOTEST
- VCM082 RICKETTSIA CONORII VIRCLIA® IgM MONOTEST
