

HISTOSMATE

An innovative, safe, rapid solution for the efficient cleaning of wax contaminated racks, molds and forceps.

✓ **FULLY AUTOMATIC OPERATION**

- 1) Load the rack - The cavity holds non-toxic isoparaffin at a constant 50°C.
- 2) Push START - The heated isoparaffin is constantly stirred to assure rapid and efficient elimination of wax traces.
- 3) Unload the clean rack - **The entire process takes 7 minutes.**

✓ **NO XYLENE**

PATHOS RACK AFTER PROCESSING

**AUTOMATIC,
RAPID RACK
CLEANING**

AFTER 7' CLEANING WITH HISTOMATE

Need more wax impregnation time?

Dual use: the HistosMATE as a stand alone, automatic wax impregnation module

- 1) Simply load rack in the cavity which holds paraffin wax at a user's selected temperature.
- 2) Set desired impregnation time (up to 24 hours).
- 3) The optimum combination of powerful magnetic stirring and homogeneous temperature distribution assures a complete wax impregnation of specimens.

HistosMATE
universal stainless
steel holder suitable
for all types of racks

OPTION

HistosMATE steel basket to automatically remove wax traces from metal molds and forceps.
